

I'm not robot!

Welcome to our 5th Grade Math Worksheets, for your child to find a look at our rounding decimal pages, or maybe some of our adding and subtracting fractions worksheets. Perhaps you are looking for some finding angles in a triangle, or need some ratio problem worksheets to help your child learn about ratio? This page contains links to other Math webpages where you will find a range of activities and resources. If you can't find what you are looking for, try searching the site using the Google search box at the top of each page. Here are the standards for the end of the year for 5th Grade. Use parentheses, or brackets, in numerical expressions and equations. Evaluate expressions with parentheses. Use and understand place value to thousandths (3 decimal places) Read, write and compare numbers with up to 3dp. Use place value to round decimals to any place. Multiply multi-digit whole numbers using the standard algorithm. Divide whole numbers with up to 4 digits by divisors up to 2 digits. Add, subtract, multiply, and divide decimals to hundredths Add and subtract fractions with unlike denominators. Solve word problems involving the addition and subtraction of fractions. Understand that (a/b) is the same as $(a \div b)$. Solve word problems involving division of whole numbers with fraction (or mixed number) answers. Multiply a fraction, or a whole number, by a fraction. Find the area of rectangles with fraction side-lengths. Divide a whole number by a unit fraction and a unit fraction by a (non-zero) whole number. Convert like measurement units within a given measurement system. Make a line plot to display a data set of measurements in fractions of a unit ($1/2, 1/4, 1/8$). Use operations on fractions for this grade to solve problems involving information presented in line plots Understand volume and how it can be measured using cubes. Measure volume by counting unit cubes. Apply the formula $V = l \times w \times h$ to calculate volumes of right rectangular prisms. Understand and use coordinates. Graph points in the first quadrant of the coordinate plane Classify two-dimensional figures in a hierarchy based on properties On this page you will find link to our range of math worksheets for 5th grade. Here you will find a range of Free Printable 5th Grade Number Worksheets. Using these 5th grade math worksheets will help your child to: use place value with numbers up to 10 million; use place value with up to 3 decimal places; understand how to use exponents (powers) of a number; understand and use parentheses (brackets); understand and use multiples and factors; extend their knowledge of prime and composite (non-prime) numbers up to 100; know and be able to use the PEMDAS (or PEDMAS) rule. The sheets in this section involve negative numbers and lists of decimals to 3 decimal places. There are also sheets involving ordering large numbers up to 100 million. There are sheets with decimals up to 10, and also sheets with numbers from -10 to 10. Using these sheets will support you child to: count on and back by multiples of 0.1; fill in the missing numbers in sequences; count on and back into negative numbers. Decimal Number Bonds to 1 Each worksheet tests the children on a range of math topics from number facts and mental arithmetic to geometry, fraction and measures questions. A great way to revise topics, or use as a weekly math quiz! Top of Page Using these 5th grade math worksheets will help your child to: add decimals including tenths and hundredths mentally; add a columns of multi-digit numbers, including decimals. Top of Page Using these sheets will help your child to: subtract decimals including tenths and hundredths mentally; subtract multi-digit numbers, including decimals using column subtraction. Top of Page Using these 5th grade math worksheets will help your child to: extend their knowlege of multiplication to decimals; use their multiplication tables to answer related facts, including decimals; multiply a range of decimals with up to 2 decimal places (2dp) by a whole number; multiply different money amounts by a whole number. Top of Page Using these 5th grade math worksheets will help your child learn to: divide any whole number up to 10000 by a two digit number; express any division with a remainder in the form of a mixed number (a number with a fraction part). Top of Page Using these 5th grade math worksheets will help your child to: apply their addition, subtraction, multiplication and division skills; apply their knowledge of rounding and place value; solve a range of problems including "real life" problems and ratio problems. Top of Page Using these 5th grade math worksheets will help your child to: compare and order fractions; add and subtract fractions and mixed numbers; understand how to multiply fractions by a whole number; understand how to multiply two fractions together, including mixed fractions; understand the relationship between fractions and division; know how to divide fractions and mixed fractions; convert decimals to fractions. Take a look at our percentage worksheets for finding the percentage of a number or money amount. We have a range of percentage sheets from quite a basic level to much harder. These 5th grade ratio worksheets are a great way to introduce this concept. We have a range of part to part ratio worksheets and slightly harder problem solving worksheets. Top of Page Using these 5th grade math worksheets will help your child to: know how to find missing angles in a range of situations; learn the number of degrees in a right angle, straight line, around a point and in a triangle; know how to calculate the area of a triangle; know how to calculate the area of a range of quadrilaterals. learn the formulas to calculate the area of triangles and some quadrilaterals; write and plot coordinates in the first quadrant. Top of Page Using these sheets will help your child understand how to: learn how to read a standard scale going up in different fractions: halves, quarters, eighths and sixteenths; how to convert metric units from one unit to another including decimal conversions. learn how to read a metric scale going up in 0.1s, 5s, 10s, 25s, 50s & 100s; learn how to estimate a measurement of length, weight or liquid; convert temperatures in Celsius and Fahrenheit. Top of Page Using these sheets will help you to: find the mean of up to 5 numbers; find a missing data point when the mean is given. find the median of a set of data. Top of Page The puzzles will help your child practice and apply their addition, subtraction, multiplication and division facts as well as developing their thinking and reasoning skills in a fun and engaging way. Printable Math Puzzles 5th Grade Our 5th Grade Math Games Ebook contains all of our fun maths games, complete with instructions and resources. This ebooklet is available in our store - use the link below to find out more! Top of Page We have started creating sets of seasonal worksheets for each grade. These sheets are great for linking to a particular topic, or doing some math that relates to the time of year. 5th Grade Christmas Math Worksheets For those of you who have found yourselves unexpectedly at home with the kids and need some emergency activities, we have developed some Math Grab Packs. Each grab pack is a collection of 10 worksheets covering a range of math topics (plus a game in some of the packs). They are completely FREE - take a look! 5th Grade Math Grab Packs How to Print or Save these sheets Need help with printing or saving? Follow these 3 easy steps to get your worksheets printed out perfectly! How to Print or Save these sheets Need help with printing or saving? Follow these 3 easy steps to get your worksheets printed out perfectly! The Math Salamanders hope you enjoy using these free printable Math worksheets and all our other Math games and resources. We welcome any comments about our site or worksheets on the Facebook comments box at the bottom of every page. Page 2 Welcome to our 2 Digit Multiplication Worksheets page. We have plenty of worksheets on this page to help you practice the skills of multiplying 2-digit numbers by 1 or 2 digits. We have split the worksheets on this page into two sections: 2-digit x 1-digit multiplication (3rd grade) 2-digit x 2-digit multiplication (4th grade) Each section ends with some trickier challenge sheets for more able students. Within each section, the sheets are carefully graded with the easiest sheets first. These sheets are aimed at 3rd graders. Sheets 1 to 4 consists of 15 problems; sheets 5 and 6 consist of 20 problems. Sheets 1 and 2 involve multiplying 2-digit numbers by 2, 3, 4 or 5. Sheets 3 to 6 involve multiplying a 2-digit number by single digit numbers and finding increasing trickier products. These 2-digit multiplication worksheets have been designed for more able students who need that extra challenge! These sheets are aimed at 4th graders. Sheet 1 involves 2-digit by 2-digit multiplication with smaller numbers and answers up to 1000. Sheets 2 to 4 have harder 2-digit numbers to multiply and answers that are generally larger than 1000. These 2-digit multiplication worksheets have been designed for more able students who need that extra challenge! We have more 2-digit multiplication worksheets, including 2-digit x 3-digit multiplication problems on this page. More Double digit Multiplication Worksheets (harder) Take a look at some more of our worksheets similar to these. Need to create your own long or short multiplication worksheets quickly and easily? Our Multiplication worksheet generator will allow you to create your own custom worksheets to print out, complete with answers. Here you will find a range of Multiplication Worksheets to help you become more fluent and accurate with your tables. Using these sheets will help your child to: learn their multiplication tables up to 10 x 10; understand and use different models of multiplication; solve a range of Multiplication problems. All the free 3rd Grade Math Worksheets in this section are informed by the Elementary Math Benchmarks for 3rd Grade. Here you will find a range of Free Printable Multiplication Games to help kids learn their multiplication facts. Using these games will help your child to learn their multiplication facts to 5x5 or 10x10, and also to develop their memory and strategic thinking skills. Multiplication Math Games How to Print or Save these sheets Need help with printing or saving? Follow these 3 easy steps to get your worksheets printed out perfectly! How to Print or Save these sheets Need help with printing or saving? Follow these 3 easy steps to get your worksheets printed out perfectly!
