- Ojos azules no llores, no llores ni te enamores. Llorarás cuando me vaya, cuando remedio ya no haya.
- Tú me juraste quererme, quererme toda la vida. No pasaron dos, tres días, tú te alejas y me dejas.
- En una copa de vino quisiera tomar veneno, veneno para matarme, veneno para olvidarte.
- Ojos azules no llores, ojos azules no llores, ojos azules no llores, ojos azules no llores.

Photo Courtesy: Pixar/IMDb Editor Note: We also compiled a list of the most anticipated films of 2022! Looking back, 2019 really capped out 10 years' movie valley with a bang. The Megablockbuster sagas that extended years came to an end thanks to Avengers: Endgame and Star Wars: Episode IX—The Rise of Skywalker. Meanwhile, some of the best films of the decade, like Parasite, and worse — sorry, Cats — made indelible marks in our collective consciousness of pop culture. With some hits like Birds of Prey already in theaters, it's time to look forward. Not only are these exciting images, they are also starting a new decade in cinema. Here are the must-see movies of 2020. A Quiet Place Part II (Paramount Pictures) | TBD If you had told us five years ago that John Krasinski — a.k.a Jim of The Office — would write, direct and co-star in one of the best horror films of the decade, we would not have believed you. However, the filmmaker praised our expectations completely with A Quiet Place 2018, which stars Krasinski and Emily Blunt as parents struggling to keep their family alive in a world invaded by monsters who use sound to find their victims. Photo Courtesy: Arturo Holmes/Wire Image images / Getty The cave of this post-apocalyptic world, of course, was that everyone had to remain absolutely quiet at all times, in addition to whispering in a soundproof cellar. The detail became more than a gimmick: He added an incredible amount of emotions and tension to the story. This year, the sequence is back with sequences of dialogue and action seemingly more than the first movie. Blunt will reprise his role, joined the new colleagues Djimon Hounsou and Cillian Murphy. The original release date was March 20, but now the release date is TBD. If you saw Star Wars: The Rise of Skywalker in IMAX, you were probably treated for a extended to tenet à 6 " on top of 25 minutes regular movie previews. At the time, we were a little angry with the film's long prologue, but after seeing the trailer, there is certainly some promise to Tenet, which is the latest offering of Inception director Christopher Nolan. Photo courtesy: Budrul Chukrut/SOPA Images/LightRocket via Getty Images Filmed for launch in IMAX, 35mm and 70mm, Tenet intends to be a party for the eyes, much like the epic Dunkirk of Nolan's anxiety induction war. The film stars the Golden Globe name John David Washington (BlackKlansman) as a secret agent who is charged with preventing World War III - through time travel. (They are like a standard Nolan, mind-bending premise for us!) Washington is accompanied by a prominent cast including Robert Pattinson, Elizabeth Debicki, Clémence Poésy, Himesh Patel, Kenneth Branagh, Michael Caine and others.
